# HALFAR® BAGS 2026

## BAGS THAT SURPRISE.

A laptop backpack with an insulated compartment for your lunchbox? A foldable rain cover that's always with you? A bag made from just one single material, from handle to lining, like our MONO? Or a collection of beautifully crafted organic cotton bags?

We've got them all! Because for us, it's all about making promotional bags even better – for you.

Be surprised by our new 2026 collection: from affordable entry-level models that make you want more to premium bags that impress with exclusive details. What always matters most: durability, functionality and design.

**For love at first sight – and second. Enjoy discovering them!**

# SUSTAINABILITY

## RETHINK INSTEAD OF THROWING AWAY

We love moving forward - with ideas that inspire and solutions that last. For us, innovation means not only creating something new, but shaping the future. That's why at HALFAR® we are increasingly using recycled materials and continuously improving the recyclability of our new models – an important step towards a circular economy.

At the same time, we design bags made to last: high-quality, functional and perfect for everyday use. Because true sustainability starts where products are built to endure. And if something should ever need repair, our repair shop helps extend the life cycle of your favourite bag.

# RELIABLE. RESPONSIBLE. COLOURFUL!

- ⊕ Management system
- ⊕ Corporate policy
- ⊕ Code of Conduct
- ⊕ Procurement policy
- ⊕ Environmental management system
- ⊕ Environmental policy
- ⊕ Climate strategy

HALFAR® stands for diversity – in our product range, our team and our thinking. Open, committed and responsible, we are dedicated to sustainable business practices, the climate and social issues. Whether as a training company, a family-friendly employer or through our diverse sustainability initiatives – we are engaged on many levels for a liveable future.

Member of amfori, the leading global business association for open and sustainable trade. We improve the social performance of our supply chain via amfori BSCI. For more information visit [www.amfori.org](http://www.amfori.org)

## EXCELLENT PRINTING AND SPEED

prosigno is part of the HALFAR® family. The screen-printing company, where people with and without disabilities work side by side, operates in the same building as we do. It belongs to Lebenshilfe Bielefeld, with whom we have been working successfully for over 20 years.

The prosigno team refines thousands of bags every year, achieving the highest print quality. prosigno prints almost exclusively with water-based and GOTS-certified ink systems as well as solvent-free digital printing inks – low in emissions and environmentally friendly for employees and users alike.

A digital prepress stage and a modern, well-equipped machinery park for screen and DTF printing ensure high flexibility and efficient processes. The short distances save resources, reduce emissions and ensure that the finished bags quickly reach their place of use.

# CLIMATE-CONSCIOUS BY CONVICTION

Our enthusiasm for the environment and the climate is something you can actually see. If you've ever visited HALFAR® in Bielefeld, you may have noticed: the solar panels, the e-charging stations, the flowering meadows on the roof... and there's always something new being added.

- ⊕ Photovoltaics
- ⊕ Green electricity
- ⊕ Pellet heating
- ⊕ Green roofs and areas
- ⊕ E-charging stations
- ⊕ Heat pump

One thing is clear: as a company, we generate emissions – but wherever possible, we avoid and consistently reduce them. And where emissions are currently unavoidable, we take responsibility.

With a financial climate contribution, we support certified climate protection projects as a "ClimatePartner Certified Company".

## SPARING RESOURCES

Our logistics centre has been built according to the latest aspects of sustainability. It produces energy itself. We also actively save waste when it comes to packaging: Since 2023, we have stopped using many avoidable plastic bags. Read more about our measures here:

## SAVING ENERGY

Whether photovoltaic system, wood pellet and insulation, green roof, LED lighting, green electricity: we pay attention to the economical use of energy and resources. We take a strategic approach through a process-controlled environmental management system and the ÖKOPROFIT® qualification programme.

## STRENGTHENING BIODIVERSITY

Biodiversity is a matter close to our hearts. Whether for plants, bees or insects in general: we have created areas for them ranging from green roofs to natural meadowland – 1500 m<sup>2</sup> in our logistics centre alone. Together with Insect Respect®, we are active partners for projects in the region.

# UNDERSTANDING THE STORY BEHIND AND THE DETAILS INSIDE

Good products are backed by good processes - and these are also important for climate and environmental protection.

That's why we arrange regular certification:

## FROM EUROPE, FOR EUROPE

We love the European idea. We strive to strengthen development in Europe, secure jobs and foster both solidarity and an intercultural exchange. For us, cooperating with companies within the European Union that share these values is important to us, as is our belief in fair working conditions.

## RELIABLY RECYCLED

We are always looking for alternatives that are even more sustainable, such as recycled materials like rPET. They help to save resources. We use the Global Recycled Standard (GRS) to which we have been certified since 2021.

"Hafflar is GRS certified. Only the products which are covered by a valid transaction certificate are GRS certified."  
certified by CU 1047624

## SHAPING INTERNATIONAL COOPERATION

**amfori**   
Trade with purpose

Member of amfori, the leading global business association for open and sustainable trade. We improve the social performance of our supply chain via amfori BSCI. For more information visit [www.amfori.org](http://www.amfori.org)

Our bags are manufactured in various locations in Europe and Asia. Wherever we work with people: We are fully committed to respecting human rights, maintaining occupational health and safety and implementing all social standards of the International Labour Organization (ILO).

We have been a member of the amfori Business Social Compliance Initiative since 2009. It is a programme with the objective of improving social standards in a global value creation chain.

## COTTON WITH SEAL OF APPROVAL

We use cotton that is certified in accordance with certain standards. The Standard 100 by OEKO-TEX® seal provides security for textiles that have been tested for harmful substances. The Fairtrade® Cotton seal distinguishes fairly grown and traded cotton. And last but not least, 100% of our organic cotton products are produced according to GOTS.

STANDARD  
100  
15.HIN.71478  
Hohenstein HTTI

## GOTS SUPPLY CHAINS

The Global Organic Textile Standard (GOTS) is the world leader in the processing of textiles made from organically produced natural fibres. It defines all environmental requirements along the entire textile production chain as well as the social criteria for the companies. HALFAR® itself is also GOTS-audited as a business.

Certified by CU 1047624

# MAKING GOOD EVEN BETTER

Smarter. More practical. More colourful. More compact. More resource-saving. More durable...

We never run out of ideas for making bags even better. This has already earned us several awards – and even more hearts.

**Most recently, for example, with the Shopper MONO – our first product made entirely from a single material, perfectly designed for the circular economy.**

# MONO

## GOOD FOR THE CIRCULAR FLOW

With MONO, we're taking sustainability a step further – by reducing material use to the minimum. MONO bags are made entirely from a single material, through and through. Pure in composition and therefore fully recyclable.

## UPCYCLING: CREATIVITY INSTEAD OF WASTE

Some materials are simply too good to throw away. Patterned office curtains, for example. Printed textile banners from the last trade fair. The leather from legendary aircraft seats. Or the tarpaulin of a truck.

Through our upcycling concept, you can turn them into something better: a unique bag collection – provided, of course, that the materials can be sewn and meet the conditions for meaningful reuse.

**Find out more about the HALFAR modular system and custom-made designs on page 208.**

What actually happens to a truck tarpaulin once it's no longer in use? At HALFAR®, we turn it into bags – for example, this custom-made courier backpack.

### FABULOUS FEATURES

Commuting, working remotely – all that makes you hungry. That's why, in this new laptop backpack, we've created a special protected space not only for your tech, but also for your snack. An insulated compartment ensures everything stays fresh.

### REPAIR? WE CAN.

HALFAR® is a bag maker. This means that we have been manufacturing our bags ourselves for over 30 years, some of them directly in Bielefeld in our own sewing shop. We have the experts in-house. Our repair service means that they are also here to help after the purchase of a bag. They can give advice, take care of spare parts, modify, repair or exchange. In this way we conserve resources, avoid waste, ensure greater sustainability and, above all, ensure that favourite bags remain favourite bags for a long time to come.

### LONGLASTING AND GOOD

We pay attention to safe components and the professional finishing of our bags. Design quality is also important to us. Because what is well done and looks good will be used for longer and does less damage to the environment - that is sustainability as we understand it.

# FULL OF DRIVE. FULL OF IQ.

**WITH OUR SERVICES, YOUR PERFECT BAG IS JUST A SMART STEP AWAY.**

„The right bag, at the right time, in the right place: that's what we roll up our sleeves for here in warehousing and logistics. Our customers appreciate that.“

## OUR WAREHOUSE:

- › on-time delivery, also internationally
- › more than 10,000 pallet spaces, more than 5 million products
- › planned delivery, in line with your delivery forecast
- › picking, packing and delivery as required
- › consignment warehouse and security warehouse possible

## NEW: THE BAG LOGO PRICE CONFIGURATOR

Now easier than ever: simply choose a bag, place your branding online, and get your price. Our new online configurator makes it all possible – anytime, 24 hours a day, seven days a week. With super simple ALL-IN-ONE branding prices – transparent, easy to understand and instantly calculable.

Create quotes for your customers even faster and more flexibly – and visualise the perfect branding straight away. Learn more about branding options on page 214.

## REALLY FAST: HALFAR® FAST LANE

It's one of the fastest finishing methods – and at the same time particularly high-quality and sustainable. After all, HALFAR FAST LANE® delivers photo-quality printing.

The process uses solvent-free inks, ensures highly energy-efficient drying, and relies on our photovoltaic and green power systems.

# AS GOOD AS MADE TO MEASURE:

THE HALFAR® MODULAR BAG.

## Choose your model.

Messenger bag, writing folder or backpack? In the HALFAR® modular system, you'll find many models that can easily be customised – in colour and material. That's how an idea quickly turns into a unique bag.

By the way: all modular bags – whether Original LorryBag® or modular model – are made in our European production facilities. This ensures quality, flexibility and short supply routes. Feel free to contact us.

Go directly to the inquiry form!

# CHOOSE YOUR FAVOURITE COLOUR.

The world is colourful – and so are your possibilities. Whether a flap made of tarpaulin or felt, or a completely multicoloured bag – it's simply a matter of taste.

## FELT COLOURS

### LorryBag® ORIGINAL

From front to back in your colours: with these models, each individual panel can be selected separately from the full colour palette.

### MODUL

Things get colourful with the flap – in exactly the shade you choose. For the bag body, various model versions are available.

## TARPAULIN COLOURS

# CHOOSE THE MATERIAL.

Tarpaulin and felt are true classics from our range. Would you like to use your own material to create a truly unique bag? Go ahead – we'll be happy to advise you.

**Does that work?**

Coffee sacks, airbags, bicycle tyres – we've already turned many things into bags. We'll check in advance whether your material can be used for a bag.

**TARPAULIN**

**FAUX FUR**

**FELT**

**AIRBAG MATERIAL**

# THE HALFAR®- MODULAR SYSTEM

## EVERY PROJECT IS DIFFERENT – AND THAT'S EXACTLY HOW WE APPROACH IT.

Wondering what your individual modular bag will cost? It's easy: **just ask us!**

We'll be happy to make you an attractive offer.

CUSTOM-MADE:

# WOULD YOU LIKE A LITTLE MORE?

## ON YOUR BIKE

### From notebook backpack to bike bag

"This notebook backpack is perfect – if only I could attach it to my bike..." Great idea! We're always happy to make such special requests come true. For one customer, we converted the ACTIVE backpack into a bike bag. The hidden mounts cleverly give it an extra practical function.

## YOUR COLOUR? LOGO!

### A bag in your corporate design.

"Could I get the bag in our shade of green?" Of course! On request, we also produce our bags in custom colours.

## WHEN PRODUCTS TURN INTO BAGS

### Using your own materials

"We'd love to turn our airbags into real bags." We're always happy when you suggest your own sewable materials – after all, they often become something truly special and unique, like these Air-BAGS.

# ONE TEAM - A THOUSAND GREAT BAGS

## ONE LOGO, ONE PRICE:

What your favourite bag costs with your logo is now just a few clicks away. Whether for screen printing, embroidery or transfer printing – here you get one clear price for your chosen type of finishing – ALL-IN-ONE. Let's go!

### SCREEN PRINTING

Direct printing process for intense colour application and durability.

### EMBROIDERY

Very refined and particularly long-lasting. Available in many colours. Combines harmoniously with materials such as felt.

### TRANSFER PRINT

Ideal for logos with many colours, precise motifs or gradients. Even bright neon, metallic and reflective colours are possible.

## METAL EMBLEM

For a lasting impression. You can immortalize your logos on special quality metal emblems. Choose from two versions: either metal emblems with a stylishly UV printing, or metal emblems with doming. On these the logo looks vividly colourful and very sculptured and the metal works like a frame.

for UV printing

for Doming

## HALFAR FAST LANE®

The pioneering refinement of HALFAR®.

Brilliant, pin-pointed printing in photo quality, with low energy consumption! Rapid drying, short production times!

Long-lasting, elegant and one of a kind. Can be refined, in part, with spot varnish - refinement that inspires.

## DIGITAL PRINTING

High-quality, individual prints applied directly to promotional bags. Especially suitable for photo motifs or designs with fine colour gradients. Coated with a protective varnish to prevent chipping and fading.

## DIGITAL PRINT LABEL

If you want to realise particularly detailed designs, this is often only possible before sewing the bag. The digital print label, however, offers flexibility – it can also be applied afterwards.

## ALL LOGO?

We currently provide more than 12 decoration techniques, most of which we implement directly here in Bielefeld, and we can tell you a great deal about every one of them. In case you should have a question, please contact us. We are happy to advise you which logo works particularly well on which material, using which technique.

- Graphic files in vectorised .eps or .ai format
- taking care that all text is fully vectorised
- Colour information for digital printing: CMYK
- Colour information for screen print: PMS
- Photographic or bitmap images files should be in actual size with a minimum resolution of 300 dpi
